Craig Walker

craigwalker1123@gmail.com | https://craig1123.github.io

TECHNICAL SKILLS

* JavaScript	* Nodejs	* CSS3/SASS/CSSinJS	* HTML5
* ReactJS/Redux/React-Native	* Typescript	* CI/CD/Docker	* PostgreSQL
* GraphQL	* Next.js	* Webpack/Gulp	* Jest/Cypress

PROJECTS

- React Hooks Library - 500+ stars https://github.com/craig1123/react-recipes
- Memorize By Heart: 32,000+ downloads iOS/Android - https://memorizebyheart.app
- Open Source Contributor - https://github.com/craig1123
- View other websites, mobile apps, and projects - https://craig1123.github.io

RELEVANT EXPERIENCE

Mattress Firm *Senior Front End Developer*   May 2020 - Current
- Architected new web pages like Mattress Matcher, transitioning from Salesforce to Nextjs. Performance on these pages went from under 20 to above 90s (Lighthouse scores, desktop).
- Trained and mentored 10 developers on technologies like React, Nextjs, Typescript, Jest, Docker, CI/CD, Component library, a11y, Security. Led the charge implementing the new tech.
- Awarded Employee of the Month (Dec 2020) out of thousands.

Sandbox VR *Senior Software Engineer*   Feb 2020 - April 2020
- Helped transition all the web pages from client side to server side rendering using Nextjs, React, Typescript, and GraphQL/Apollo. Built http://sandboxvr.com/fightnight.

tZERO *Front End Engineer*   Sep 2018 - Feb 2020
- Worked on the Trade team to maintain the core functionality of the tZERO online trading platform built on cutting-edge blockchain technology.
- Built the tZERO homepage from the ground up.
- Implemented a tZERO React Component Library along with an internal Admin Panel
- Mentored new developers while working closely with Product Management and UX/UI.

Overstock.com *Front End Engineer*   Jun 2017 - Sep 2018
- Sole developer on the most performant and compliant web pages on Overstock.com.
- Built Overstock's component library/design system and internal NPM modules to reuse on the entire site.
- Worked on the core Front End team making internal tools for other developers.
- Delivered presentations on Front End best practices to all Front-End developers.

Jolt *Front End Developer*   Sep 2016 - Jul 2017
- Responsibilities in React.js, Redux, Immutable.js, React-Native.
- Contributed to reusable components to Jolt's UI library.

EDUCATION

Brigham Young University *Bachelor of Science in Psychology; Minor in Business Management*
